Office Action Summary

Art Unit: 1732

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Maus et al in view of Hambright or Hambright in view of Maus et al for reasons of record.

2. Applicant's arguments filed December 13, 2000 have been fully considered but they are not persuasive. Applicant notes that the instant invention is capable of making an optical product having a patterned surface without the need to fit a stamper. However, claim 1 only requires that the second mold unit has a mold surface containing the plurality of patterns and claim 10 calls for using a metal puck with a plurality of patterns which is located against another mold surface. It is not seen that the combination of references has been inaccurately applied. While mold part 14 may indeed be a stamper, it nevertheless constitutes a mold surface of the instant type.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 1732

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
